PROJECTS

Retail E-Commerce

- Technologies Used :
- **Spring Boot | Spring Data JPA | MySQL | Restful APIs |**
- Key Features: User Authentication: Secure login and registration for users.
- User Authentication: Secure login and registration for users.
- Product Management: Add, update, and remove products from the catalog.
- Shopping Cart: Users can add products to their cart and manage quantities.
- Search and Filtering: Advanced search and filtering options to easily find products.
- Admin Dashboard: Manage users, orders, and inventory through a comprehensive dashboard.
- Analytics and reporting: Track sales, user activity, and other metrics with detailed reports.

Smart Email Assistant

- Technologies Used:
- **Spring Boot | Spring AI (Gemini API Integration) | Reactjs | RESTful APIs**
- Key Features:
- Intelligent Chatbot: Integrated Google Gemini API to provide AI-powered, context-aware responses.
- Backend Development: Built scalable RESTful services using Spring Boot for chat processing.
- Designed an interactive ReactJS UI for real-time AI conversations.
- Implemented automated email reply generation using Gemini's NLP capabilities.
- Browser Extension: Added AI assistant extension for quick access and message suggestions.

AI-Based Animal Classification

- Technology Used:
- **Spring Boot | Spring Data JPA | Spring AI (Gemini API Integration) | MySQL | HTML | CSS | JavaScript**
- Key Feathers:
- Users can upload images for analysis using a simple "Select" button.
- AI analyzes the uploaded image and generates details such as BCS score, animal type, hump ratio, breed, and reproductivity.
- Integrated AI chatbot to answer farmers' queries in real-time.
- "About Us" section for reporting and addressing farmer-specific questions.
- Responsive and user-friendly interface for seamless experience on web and mobile devices.

EDUCATION

B.Tech. (ETC)

Karmayogi Institute of Technology

📅 Aug 2023 – Present (3rd Year)

CGPA: 8.43

Higher Secondary - 63%

Pune Board

📅 2021 – 2022

Secondary - 84.20%

Pune Board

📅 2020 – 2021

ACHIEVEMENTS

- Solved 200+ coding problems on platforms like HackerRank and LeetCode to improve problem-solving and programming skills..
- 5-Star in Problem Solving on HackerRank.
- Certified in Java Programming by HackerRank.
- Good foundational understanding of Data Structures and Algorithmic Problem Solving.
- Participated in national-level coding competitions and hackathons.

TECHNICAL SKILLS

- **Programming Languages:** Java, C, JavaScript.
- **Web Technologies:** HTML, CSS, ReactJs
- **Frameworks:** Spring Boot, Spring Data JPA.
- **Databases:** MySQL
- **Development Tools:** Swagger UI, Github
- **Operating Systems:** Windows
- **Additional Languages:** Python.
- **Cloud Platform:** AWS.

COURSE SUBJECTS

- Operating System
- Computer Networks.
- Object Oriented Programming.
- Database Management System.
- Software Engineering
